

MASSAGE TESTIMONIAL

1. Why did you initially decide and/or why do you continue to get a massage? What was your initial issue, pain, discomfort?

Kathy the water aerobics instructor said she went to Inna for a massage and immediately her sinus started draining. I decided to try Inna for a massage for my extremely tight shoulders and I was amazed at how loose my shoulders and entire body felt after that. I continue to get massages because I feel like they help with my lymphatic and keep my entire body loose so that the body can work better.

2. Why did you choose us?

Because of Inna. I have not tried anyone else there at the club. I appreciate the honey on the bottom of the feet and the hot towels, etc. They all feel so lovely.

3. How did we solve your problem?

The massage and technique that was used during the massage allowed my shoulders and body to not be so extremely tight.

4. How has this treatment(s) improved your life?

I can do things in life without being in pain. Also made me aware that when I start getting tight muscles it is time for another massage.

5. Why would you recommend us to others?

I was happy with the services that I received and the information that I learned.

6. Is there anything else you'd like to share to future clients?

I would encourage you to try it out to see if you are able to get the relief that I was able to get.
